Study on Spear-head shaped Point in KANMURI Sites  
—With a central focus on excavated stone tools from the first cultural layer  
on Second excavation of KANMURI Site Locality D—

FUJINO Tsugifumi

1. Introduction
2. Excavation of KANMURI Site Locality D and Spear-head shaped Point Industry
  - 1) Overview of KANMURI Sites
  - 2) Location and excavated area of KANMURI Site Locality D
  - 3) Stratigraphy and cultural layers
3. The stone tool assemblage of the first cultural layer in KANMURI Site Locality D
  - 1) Excavated stone tools
  - 2) Refitted stone tools and Flaking technologies
  - 3) The distribution of excavated stone tools
4. Spear-head shaped Point Industry in KANMURI Sites
  - 1) Features of Spear-head shaped Point Industry in KANMURI Site Locality D
  - 2) The distribution of Spear-head shaped Point Industry in KANMURI Sites
  - 3) Features and chronological position of Spear-head shaped Point Industry in KANMURI Sites
5. Conclusion

*Surveillance and Excavation section*

Outline of Consultations, Surveillances and Trial excavations ( 2009 )

- 1 . Introduction
- 2 . Overview of trial excavations and surveillances
- 3 . Conclusion

*Appendix*

- I . Spread and research activities (2009)
  - 1 . The outline of spread and research activities in 2009
  - 2 . The outline of conservation and management in 2009
  - 3 . Education and research activities in 2009
  
- II . Organization of Hiroshima University Archaeological Research center
  - 1 . Guideline for setting Hiroshima University Archaeological Research Center
  - 2 . Members of Hiroshima University Archaeological Research Center
  
- III . Organization of Hiroshima University Museum Archaeological Research Section
  - 1 . Regulations of Hiroshima University Museum
  - 2 . Guideline for setting archaeological research technical committee in Hiroshima University Museum management committee
  - 3 . Members of Technical Committee
  - 4 . Members of Hiroshima University Museum Archaeological Research Section
