

MEDICAL JOURNAL OF HIROSHIMA UNIVERSITY

Vol. 49

February, 2001

No. 1

CONTENTS

- Structural Variation of the DNA Double-strand
Break Repair Gene *MRE11* Ryoji OHNARI (1)
- Molecular Cloning of Rat c-Yes Protein Tyrosine
Kinase and Identification of Autophosphorylation
Sites Masahiro SHIMIZU (9)
- Clinical Investigations of Hemodynamics of
Obstructive Cerebrovascular Disease by
Measurement of Cerebral Circulation Time
by Using Intra-arterial Digital Subtraction
Angiography —Theory of the measurement
and normal value— Takashi HATAYAMA (25)
- Clinical Investigations of Hemodynamics of
Obstructive Cerebrovascular Disease by
Measurement of Cerebral Circulation Time
by Using Intra-arterial Digital Subtraction
Angiography —Examination in the patient
with obstructive cerebrovascular disease— Takashi HATAYAMA (33)
- Effect of *Helicobacter pylori* from Gastric
Diseases with Two Different Genotypes on
the Polmorphonuclear Leukocytes Function Delixiati YIMITI (47)
