

MEDICAL JOURNAL OF HIROSHIMA UNIVERSITY

Vol. 50

February, 2002

No. 1

CONTENTS

- Mutational Analysis of the Sendai virus V Protein:
Importance of the conserved residues for virus
pathogenesis and efficient RNA editing..... Noriko FUKUHARA (1)
- Analysis of Cerebrospinal Fluid Flow in the Aqueduct
using Cine Phase-Contrast Imaging: Efficacy of
a New Technique to Correct the Maxwell Term
Phase Errors and Fourier Analysis..... Takayuki SUZUKI (13)
- The Experimental Study for Repair Process of Rotator Cuff
– Effects of Synovium of Subacromial Bursa on the
Healing Process of Rotator Cuff – Kazuhiko KIKUGAWA (29)
- Changes of Agonist and Antagonist Spinal Motor
Neurons Excitability by Muscle Fatigue: analysis of
H-reflex and M waves of evoked electromyogram WANG Guoxiang, Kiyoshi ONARI
Kotaro KAWAGUCHI, Fuminari KANEKO
and ZHAO Jinhua (45)
- mel-18*, a *Polycomb* Group Gene, is Haploinsufficient
for Murine Spontaneous Adenocarcinoma Mari KIMURA (53)
