

**Memoirs of the Faculty of Integrated Arts and Sciences
Hiroshima University
Vol. 21**

An algorithm to calculate plethysms of Schur functions Yoshio AGAOKA	1
Endothyroid foraminifers of the Hina limestone in Okayama prefecture, western Japan Mutsumi FUJIMOTO and Kimiyoshi SADA	19
Carboniferous primitive fusulinaceans from the Koyama limestone in Okayama prefecture, western Japan Kimiyooshi SADA, Kazuyoshi NOMURA and Mutsumi FUJIMOTO	33
Influences of rainfall and soil water flow upon CO ₂ concentration in a dryland paddy Akio TSUCHIYA	69
On learning of fuzzy controller with neural network Koichi MIZUKAMI and Hirofumi FUKU	81
A Lypapunov approach for robust state feedback synthesis and its application to robot control Hansheng WU and Kouichi MIZUKAMI	93
Conversion of route guide between sentences and rough sketch via coded information Tatsuo YAMAMSHITA and Keiichi YAMAGATA	115
Landscape structure of Setoda-cho, Hiroshima prefecture Yoshiyuki Ikegami and Nobukazu Nakagoshi	131
Performance and effects of annual environmental auditing in an enterprise as a social system —OSTRAND Co. Ltd. as a model system— Toshimichi Yamanishi, Hiroshi Akai and Kohji Hayase	145
A study on the automated VTR motion analysis system by two dimensional DLT method Yoshihiro Hashihara and Kiyomi Nishimura	161
An attempt to construct the obsessive-compulsive tendencies scale Masaaki Ide, Tatsuya Hosoba, Ryouji Nishimura and Hidetoshi Seiwa	171
Commitment processes in close relationships Yoshiyuki Kamizono and Masaru Kurokawa	183
The regulative factors of gender differences on the promotion rates in Japanese business organizations Kiriko Sakata and Masaru Kurokawa	197
The effects of the appearance rate of stimulus on the rats' auditory evoked potentials Nobuya Sato and Shogo Sakata	207
Encounter group held at a workspace —conditions to success and its merits— Satoshi Iwamura and Akira Ohnaka	219
Summary of Doctrate	
Ecological study of Bamboo communities: a resource based approach Yuji Isagi	235
Fluvial geomorphological study of meanders — from climatogeomorphological viewpoint Nobuo Kohchi	239
Ecological and taxonomic studies on filamentous fungi of sediment in fresh water, brackish water and marine environment, with special reference to water pollution Seiichi Ueda	243

Study on part of rooftop in the vertical structure of urban climate Yiping ZHANG	247
Estimation and mapping of the forest biomass and carbon balance in a mountainous region, based on Landsat TM data Naam Juu LEE	251
The community structure and secondary succession of temperate forests Shuji WADA	255
Interfacial materials design for Metal-Hydrogen system -formation and hydriding properties of the Mg-, Y- and Zr- based composite materials- Shin-ichi ORIMO	259
Studies of partial pressure of carbon dioxide in surface seawater and carbon flux in the Seto Inland Sea Yuichiro KUMAMOTO	263
A study on photo-induced polymerization and the relaxation process in liquid sulfur Yoshifumi SAKAGUCHI	267
Study of an exotic resonance in proton-proton system Junich NAGATA	271
Thermoelectric power of cerium compounds and uranium compounds Yoshio BANDO	275
Synthesis and physical properties of ternary uranium compounds Yasuomi MAEDA	279
Order parameter mixing effect on superconductivity in the magnetic field Shigemasa MATSUO	283
Studies on the structures and functions of adrenal microsomal cytochrome P-450 Hiroko TAGASHIRA	287
Others	
List of publications of the staff of the division of sciences, Faculty of Integrated Arts and Sciences, Hiroshima University (1994)	291

Editorial Board

Masaaki ANDO
Koji OHKITANI
Katsumi TOGASHI
Akihiko TODA
Mitsuo HAYASHI
Kouji HAYASE
