Vol . 25

Solutions and almost solutions of the Gauss equation of $SU(3) / SO(3)$ Yoshio AGAOKA	1
Conharmonic transformations of twisted product manifolds Yoshio AGAOKA, Byung Hak KIM and Hyun Ju LEE	11
Digital sound data description with cellular automata and its application to data compression Masato WADA, Josuke KUROIWA and Shigetoshi NARA	21
Some features of air pollutants transport processes in summer driven by three-dimensional wind distributions in basins Junichi NAGATA, Kazuo HARADA and Masanori MATSUDA	33
Quantitative energy-dispersive X-ray microanalysis of rock-forming minerals Yasuki HIRAYAMA and Masato FUKUOKA	45
How to trap moles and shrew-moles and to keep them alive in captivity Shinichi KUSAKABE and Tadashi KUSAKABE	55
Effect of feeding by <i>Monochamus alternatus</i> on pine tree vitality (2) A case of natural young Japanese red pine stands under different air pollution levels Hiroto OKABA, Kaneyuki NAKANE, Toshiyasu TOMII and Kouji EBISU	61
Mass wasting process at the surface of the Sangun metamorphic rocks in Kaminishigawa area, Asahi-machi, Okayama Prefecture Hidekazu SHINGUBARA, Yasuyuki HIRAYAMA, Atsushi TSUSHIMA and Yukimasa OHO	75
Dieback of pine forests and the tree population structure in pine wilt disease forests in Higashi-Hiroshima city Harue SHIRATSUKI, Reiko NEMOTO and Nobukazu NAKAGOSHI	89
Topographic characteristics to cause landslides and fluidization of their materials — From the debris flow disasters in the northwestern part of Hiroshima Prefecture in 1988 — Tetsuya WATANABE and Masahiro KAIBORI	103
Characterization of tree species of a flood-induced riverside forest in La Macarena, Colombia Akio TSUCHIYA and Kosei IZAWA	117
Hypnagogic EEG stages and polysomnogram Mitsuo HAYASHI, Kenji HIBINO and Tadao HORI	125
The effect of feeling of similarity with music on relaxation — Relation between mood before listening and music type — Takako ITO and Makoto IWANAGA	141
Effects of scientific lecture on the change of paranormal beliefs about <i>kanashibari</i> phenomenon Kiriko SAKATA	151
A mutual relationship of daytime activity and nocturnal sleep in the elderly Ai SHIROTA, Munehisa TAMAKI, Mitsuo HAYASHI and Tadao HORI	161

The influence of need and ability to achieve cognitive structuring on self-esteem and receptivity of others Mitsuhiro URA	171
--	-----

Summary of Doctrate

Studies on bioactive quassinoids – Isolation, sgnthesis, and structure-activity relationships – Shakila RAHMAN	181
Nano-structural characterization of the Mg-Ni-based Hydrogen storage alloys using focused ion beam/transmission electron microscope technique Ken-ichi YAMAMOTO	185
Changes and movements of the Locus of amplified <i>c-myc</i> genes in HL-60 cells during culture of differentiation induction Md. Masudul HAQUE	189
Imidazoline receptor and its role in the intestine of the eels acclimated to sea water Hung Toe KIM	193
Effects of co-occurring tree speciess on the susceptibility of <i>Pinus densiflora</i> and <i>P. thunbergii</i> stands to pine wilt disease Katunori MATORI	197
Biosynthesis and function of Neurosteroids in the vertebrate brain Kzuyoshi UKENA	201

Others

List of publications of the staff of the division of sciences, Faculty of Integrated Arts and Sciences, Hiroshima University (1998)	205
