Vol. 26

Generator sources of 14Hz/12Hz sleep spindles during stage 2 sleep Kazutaka Ueda, Hiroshi Nittono, Mitsuo Hayashi, Tadao Hori	1
The Use of Event-Related Potentials in Psychological Research Hiroshi Nittono and Tadao Hori	15
Cognitive processes on Pavlovian conditioning. Tatsuya Hosoba, Makoto Iwanaga and Hidetoshi Seiwa	33
The moderating effect of mutual self-disclosure on self-other mutual influence processes concerning self-appraisal: How is identity negotiation conducted? Koji Hasegawa and Mitsuhiro Ura	47
Cytology in Hairy Cell Leukemia (HCL) Takaki Izumi, Takashi Komura, Kimio Kushima, Misako Yamashita and Kimio Tanaka	63
Effect of a tree tonic on pine tree vitalities (2) Evaluation for pine seedlings in pots Kaneyuki Nakane and Kouji Ebisu	71
Effects of mowing to <i>Solidago altissima</i> populations Katsumi Nakashima, Kunito Nehira and Nobukazu Nakagoshi	81
On the Gauss equation in the exterior algebra Yoshio Agaoka	95
Conharmonically Flat Fibred Riemannian Space Yoshio Agaoka, Byung Hak Kim and Sang Deok Lee	109
A Trial of Genetic Algorithm to Furniture Arrangement in a Room Tetsu Kuroda and Keiichi Yamagata	117
Summary of Doctrate	
Methodology of analyzing landscape structure and its application for environmental conservation planning Yoshiyuki Ikegami	131
Structure and function of type-II thiolase from the nematode <i>Caenorhabditis elegans</i> Motohiro Maebuchi	137
Assessment of Forest Resources Using Remote Sensing Data -Case studies on forest fire and pine forest blight- Chunxiang Cao	141
Electrochemical and Optical Studies on σ - π -Conjugated Oligothiénylene-Oligosilanylene Copolymers Lihau Zhu	145

Chemical, Behavioral and Physiological Study of Remote Stimulants that Control Foraging Behavior by Adult Butterflies Hisashi Ômura	153
Study on learning and timing control in complex bimanual coordination Makoto Tajima	157
A study on effects of an afternoon nap in the healthy elderly Munehisa Tamaki	161
The relations between self-other mutual influence processes on self-appraisal and well-being Koji Hasegawa	167
Visual function of the parahippocampal cortex in primates Nobuya Sato	171
Identification of an Oviposition-Inducing Peptide and Its Action in the Bird Dan Li	175
Mineralogical and chemical weathering of mudstone of Tertiary Furue and Aishiro Formations in Shimane Peninsula, and of Tertiary Kase Formation in Nagasaki Prefecture, Japan Atsuo Tsushima	179
Magnetotransport properties of exchange enhanced electron systems of $Y(Co_{1-x}Al_x)_2$ and $TmCo_2$ Takao Nakama	183
Concentrations, Deposition Rates and Sources of Aqueous-Phase Organic Acids in the Atmosphere Takayuki Miyake	187
