	Comments
	Discussing the issue of refugees itself is worth conducting.
	Good and very good, learning many information regarding refgee and migration.
	Good initiative
	I think it is really interesting symposium. This is the very important issue, 'Migration and refugee', but difficult to solve in many countries.
	I think the symposium address the global issue that has been requires attention and kind handling. This kind of symposium will certainly help to more people confident to tackle the situation through right way.
	It is a good symposium have attended. I have fully understand that migrants move into another country for a number of reason: in time of droughts and familes, insecurity, and poor economic condition. How ever the state's nation has to set a standard criteria for accomodating those who seek refugees.
	The topics were very homogeneous, although it is understandable. If won'd be preferable to make it more thematic.
	The symposium is very informative and provides an understanding about lesson learned and experience regarding migration, refugee and displaced people, conflict prevention and peace building.
	The symposium was good
	This is the first time for me to participate the symposium. It is a great experience and new knowledge in migration and refugee. Moreover, the symposium make me realize the cause many people around the world migrated to the 3rd countries.

	Very informative because it enlightened my understanding of new perspectives of IDPs and refugees.
	We learned a lot from the symposium. Because officials who work directly with UN give speeches, so we know from them what UN in really going to do.
好意的な 意見/ Positive comments	今まで「移民・難民」という言葉はテレビを通じて聞いただけのもので、今日にシンポジウムにおいて、これらの言葉について少し深く理解してきた。
	移民・難民に焦点を当てたディスカッションをもっと聞けたらと思いました。西田先生のディスカッションのマネジメントがお上手で時間がない中でも和やかな雰囲気での議論を聞くことができました。
	センター長のお話がわかりやすかった。
	対話が大切ということ。一方で議論の場をせめていするまでも大変なことだと感じた。自分が何ができるか考えることが大事だと思いました。
	とても良かった。Principled we protected wars must be found out.
	本日のシンポジウムは移民・難民の問題について、双方向コミュニケーションを通して自分の考えも広くさせるので、とても良かったと思います。またこのようなシンポジウムがあれば、また参加したいです。

The symposium is interesting, though the time of discussion and question was limited.	
As the discussion topic is the most important issue worldwide such symposium will give more attention to it and awaking the thought of Nations who can do something for the migrant.	
David L. Phillips 先生のお話がとても興味深かった。	
批判的な 意見/ Negative comments	Phillips 講演、独口論では聴花的で新味がなく、とくに興味をもてなかった。具体的に詳細な分析に基づく発表は利不先ずのものだけであった。対本先生の現地の状況に基づく具体的な問題提起はたいへん有益であった。
	The symposium is not satisfactory.
平和について の思い/ Feelings about Peace	Guest having a glance and insight into this global issue "Migration and Refgee". However, for to provide adequate and practicable answers due to complexity of this issue. Be aware of the problems and think about sustainable societies.
	Davidさんのイスラム国にかしましては、hard power(軍事力)とsoft powerが必要だとおっしゃいましたが、私はhard powerで対抗するには及ばず、武器禁絶への道を探るが最善だと考えます。
質問法について/Q&A	To solve this problem, we have to consider from many perspectives to find out the concrete solutions. People awareness is also an important one to think about.
	平和は無敵の強敵の現状の成長だと知りました。禁い物と潮流が必要。
	I think, discuss on section must be two panel discussion. It means audiences should be involve in the discussion by raising the question orally and if they are not satisfy with the answer then should re-ask or clarify in more details.
	The symposium should give opportunity ask questions directly not written based.
	I here should be an opt an that audience can ask question or discussion directly.
